Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the

day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year

Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Family First

Ascendant in Cancer

Your approach this year is cautious, because you care and you want to show that you care. The challenge is not in the intent but in the delivery, as you need to take control where it is important but can't afford to waste your inner resources where they are needed or don't deliver mutual return. When your heart is on your sleeve, there are too many wanting to relieve you of it, but when you play your cards close to your chest, sometimes it can be a lonely game. This year you'll want a creative balance between the two, because you need to move forward with what moves you inside.

Emotional Examination Arises

Moon Sextile Ascendant

You're sufficiently busy communicating with others this year that you don't worry about what you look like, and that ease shows on your face. You're not censoring yourself because your mind is elsewhere, and thus there is no level of deception on the surface, even if there is beneath. You look clear and calm.

Career Building Arises

Jupiter Trine Ascendant

Positive developments accrue to you by your ability to let your creative urge spur you along and not be held back by ordinary convention. You don't have to think outside the box, just expand it a bit and it won't even seem like pushing the envelope. When it's time to grow, you just step aside and make room for it.

The Foundation for Your Year (continuation)

Physical Experience Arises

Saturn Opposite Ascendant

Relying on yourself and not a partner may be both the trend and the necessity this year, as you find more interference coming from that direction than help. He travels the fastest who travels alone, or at least with a minimum of others' baggage in tow. It's also good for whittling the choices down to one and cementing that one.

Spiritual Conservation Arises

Neptune Trine Ascendant

Creative interpretation of your personal presentation, the way you look to others, allows you a lot of freedom to play the part they want to see while still being yourself. It's not about the details, it's the general idea and façade that carries off the production, and you're the director.

Power Experience Arises

Pluto Opposite Ascendant

Partners may put up opposition this year, blocking your way, locking you out, trying to take control of your actions. That can be the stuff of strife or the opportunity to change horses in midstream. Or, you can simply surrender if it's not worth fighting over. Confrontations have to be mutual to lead to trouble.

The Midheaven

Your Reputation, Career, Life Path

Manage Acceptance

Midheaven in Pisces

What people say about you this year may be totally different than what is actually going on with you, almost as if you're flying a flag of a different nation. That known, it's good to check people's expectations before you invest in satisfying them, so no one comes off surprised or startled by reality.

Manage Self Acceptance

Sun Sextile Midheaven

Your reputation may benefit the most from things you know the least about – or certainly from others knowing the least about you. As long as you hold a little back, it will look like there's lots more to come. And, this year, there is quite sufficient to fill the bill, so you really don't have to think about it much.

Manage Progress in Values

Venus Square Midheaven

You may have to strike a balance between getting everything you want out of the year and seeing your reputation suffer for it. Above all, be discreet, as tales told out of school about you will not likely be true, so there's no point in providing a factual base for others to fantasize upon.

The Foundation for Your Year (continuation)

Manage Examining Action

Mars Sextile Midheaven

Whatever you do this year behind the scenes or simply hidden from view will serve you well, even though you may not exactly know why at the time. Digging for treasure may actually find you some, and working on your own inner issues could unearth personal information that will have been more than worth the effort.

The Sun

Your Inner Personality and Style

Planner

Sun in 11th House

This is a year to hang out with the best – those who have and will serve you well. Although that could be anyone from old school friends to the hottest new clique, you'll know them when you see them, because there's an inner magnetism pulling you there. Your recognition of value is in part what gives the greatest value to your circle of trust, because those there are somehow extensions of your own personality. A winner knows a winner, so they say, and that pretty much describes it for you this year. Seek them out, they await you.

Success by Effort

Sun Trine Mars

You're in for a steady ride as far as your fuel supply goes this year, with enough energy to burn to get the job done but without wasting any, either. When it's time to put your shoulder to the wheel, you'll know it and do it without a problem, and as with all exercise, you'll get stronger the more you perform.

Experience Success

Sun Opposite Jupiter

Your ambitions and developments grow in fits and starts this year, in leaps and bounds rather than steady outward growth. Sometimes you feel like a spurt, sometimes you don't. That may have people wondering about your intentions, whether you're in the game or not, so pretend it's part of the plan.

Embodiment Change

Sun Trine Pluto

You can operate on faith more than usual this year, as you've got a feeling that no matter what the situation, you're going to come out all right in the end because you're connected to a larger picture. That's actually true, though you won't know how until afterwards – but it's sufficient to believe it for now.

The Moon

Your Feelings, Reactions, Emotions

Fertility

Moon in Taurus

Your emotional pace this year is likely to be more deliberate, gradual on the uptake as you take extra time to make sure your reactions are correct and your feelings are both sincere and enduring. You'll find yourself more patient and willing to absorb and tolerate rough or uneven patches that might normally get you riled up or annoyed. There's a feeling that it's worth

The Foundation for Your Year (continuation)

the added effort to decorate your inner life with depth and content that may require added expense or effort because the end result is so much more satisfying. For the moment, you can skip instant gratification, go for the 24-karat life...

Community Support

Moon in 11th House

Whether you're pushing on the way up or relaxing at the height of your career, your closest company is what defines the way your world develops. This year you are particularly sensitive to those near and dear, your elected personal elite, and who you'd like either to become or remain among them. Dreams don't come true until they're imagined, and the road to their fulfillment is almost always determined by the people you choose and who choose you. Your ability to create and sell yourself here, as well as protect what you are already working on, is particularly highlighted this year.

Experiencing

Moon Opposite Jupiter

Emotional overreaction or mistimed reaction may be a hallmark of the year, as you feel strongly about things but find it hard to express it at the appropriate time. Bursts of enthusiasm, followed by holding back, are more likely than an even flow, which may confuse some as to whether you really mean it.

Building Discipline

Moon Trine Saturn

Caution comes naturally to you this year, and a cool hand on the wheel sees you steadily through situations that might otherwise have riled you past the level of wise action. By not taking the first thing to come to hand, you enable opportunities to develop until you get the most for the least inner expenditure.

Long Suffering

Moon Sextile Neptune

Your intuition is sufficiently fine-tuned this year that you don't particularly think about it but just play the hunch automatically, as if it weren't one. There's no way you're going to be able to justify that, but you probably won't be asked to, as no one, including yourself, will question the process.

Embody Control

Moon Trine Pluto

You've got a lot of faith that things will turn out right this year, and you're likely to act with a lot more confidence because of it. Your initial reaction is that the situation will come out OK no matter how dire, so you're fearless when others might hesitate, which makes the difference between success and failure.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Fertile Ideas

Mercury in Taurus

Slow and steady wins the race, and that's how you'll be thinking as you take more time to thoroughly deliberate upon your ideas before you let them out of the bag. Avoiding spin and getting down to brass tacks, ideas that feel right in the gut as well as make sense in the head, that's what fills your planning bill.

Practical Ideas

Mercury in 10th House

You can't boast about your successes unless you've got a good game plan ready to publish. This is the year for letting people know how organized and intelligent you are, so get on with it. You don't have to actually be totally fail-safe, but it should look like it on paper, so who could tell?

Make a Statement

Mercury Square Mars

Allotment of planning efforts are a challenge this year, as you can easily find yourself spending too much repeated mental exertion reinventing the same wheel when you should get it right the first time. A lot of wasted talk gets you nowhere, even though it seems to be thrashing out the details.

Mind Training

Mercury Trine Saturn

Your thinking this year is unusually logical and orderly, which allows you to lay down some well-conceived foundations for projects in preparation. Unhurried solutions are usually the most lasting, and it takes a steady hand to put on the perfect finishing touches as well. From beginning to end, a deliberate pace makes for a robust resolution.

Personally Speaking (continuation)

Insights and Ideas

Mercury Conjunct Uranus

That brilliant idea you've been waiting for is waiting for you just up ahead, making this a eureka year and then some. Don't expect to be thinking straight, because it's thinking out of the box and out of the ball park is the theme. Your head may feel positively peppery by the end of it, because you don't know what thought is coming next.

Venus

Your Needs, Wants, Desires

Talk of Love

Venus in Gemini

Why stick to only one pleasure when you can trip from flower to flower, tasting them all? That may be a theme for a while, so don't feel you have to go deep in order to get what you want. A smorgasbord may offer more than a big helping of life's meat and potatoes. Delicacy of taste rules the day, as does variety.

Selfless Love

Venus in 12th House

Sometimes what you most want can get you into trouble, so look twice this year before biting into that magic mushroom – you don't know where it's been. Nevertheless, secret goings-on have especial allure and won't be hard to come by – just be careful someone's not watching behind your back.

Mars

Your Energy, Life Force, Excitement

Efficiency Drive

Mars in Capricorn

Hard work doesn't mean long hours, but it does mean unflagging focus and a single purpose to get your job done. That approach will float your ambitions and support your success as long as you keep your eye on the ball. Not much room for frills or play, but when it's done you can bank on the launching pad you create.

Social Drive

Mars in 7th House

When you're looking for an energy boost this year, look to someone else to supercharge you. Sometimes it takes a spark from another plug to get your own engine fired up, and that sometime is upon you. You don't have to put your own shoulder to the wheel when someone else is eager and waiting to help you out.

Public Freedoms

Mars Square Uranus

Work rhythms can be somewhat jagged this year, with a stop-and-go quality that comes from changing circumstances that require constant adjustments. You can waste a lot of energy overadjusting your course, so don't reverse the wheel or gun the engine with every little change in scenery. Try for an even hand, despite irregularities.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter	Ambitions, Goals, Possibilities
	<p>Business Career Jupiter in Scorpio</p> <p>The game is afoot in the coming year, and it's all about mysterious plans laid undercover (or under the covers) which are generally open only to an inner circle. That means development goes underground, and at an ever more feverish pace. Of course you can buck the trend while joining it, too, simply by hiding your operations in plain sight.</p>
	<p>Expressive Career Jupiter in 5th House</p> <p>Opportunities for creativity abound, perhaps more than can be kept track of. Your challenge is to choose the new games that will actually have appeal beyond the moment, choose the form of play that keeps playing when the other shows have closed. You'll have fun regardless, but why not make it an investment?</p>
	<p>Preserve Tradition Jupiter Trine Neptune</p> <p>There is a general feeling, in the background this year, that dreams and expectations are quite realizable (if not, indeed, already realized) and that none of it requires much tending, as what will be, will be, I'm OK, you're OK, win-win, let it be. Use it to your advantage and get a piece before the illusion fades.</p>
	<p>Analysis Jupiter Sextile Pluto</p> <p>This is an excellent time for whipping up great faith in whatever new trip you are onto, regardless of its apparent merits. Basically, your personal or financial success can hang on your ability to generate a deep feeling of trust and the inevitability of what you believe to be the right course. That's what people are looking for right now.</p>

Saturn

Caution, Wariness, Wisdom, Boundaries

Obstacle: Practicality

Saturn in Capricorn

Although work may be its own reward, the work ethic is not a guarantee of success. This year reveals that, as efficient and judicious effort is rewarded while those who have been only repeating operations based on previous success will find their edifices relentlessly crumble. The past reaches the future only through change, don't forget it.

Obstacle: Care

Saturn in 6th House

Trimming your schedule and getting rid of daily redundancies could be this year's blessing in disguise. It may be tiring or tedious in the process, but it will clear the decks for more important operations as time goes by. Eat less, live longer – and that doesn't mean you have to starve yourself.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus

Discovery, Revelations, New Ground

Freedom: Action

Uranus in Aries

Discoveries are made by forcing the issue in this seven-year period. Breaks and discontinuities seem to come from out of the blue, even though they have been gestating for some time. Belief systems around you change radically at sudden shear points, revealing the obvious only after the fact, leaving the most aggressive in charge.

Freedom: Practicality

Uranus in 10th House

Stabilizing your career position may be a challenge this year as unexpected news requires you become part of the story and adjust accordingly. Inventiveness and originality is the key to your actions here, and the corner office is reserved for those clever enough to move with the gusty winds to achieve it.

Neptune

Dreams, Hopes, and Fantasies

Embrace: Life

Neptune in Pisces

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

Embrace: Spiritual

Neptune in 9th House

The bigger the idol, the more plentiful the worshippers, the more likely it's feet are of clay. This is a lesson for the year, so watch out who and what you put on a pedestal, as much of it may be your own imagination and hide a hollow center. Projecting yourself upon the heavens, however, is the first step to going there.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Public

Pluto in 7th House

Domination in the personal sphere may be a real issue when you find yourself in yes-or-no positions with a partner and it's my way or the highway. There are other roads to follow, in fact, if you both agree to eschew the one you're fight over. So often, if it's worth fighting about, it's worth your walking away from.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Fresh Ideas

Moon Conjunct Mercury

Really feeling what you say is a theme for the year, as your new emotional take is tied to your talent for figuring things out. So articulating your reactions come easy, and while others are still stammering to say what they mean, you've already hit the nail on the head with the first words out of your mouth.

Venus

Your Needs, Wants, Desires

Insight Into Feelings

Moon Conjunct Venus

You're extremely attuned to what you want, and sometimes desire is so strong you can taste it this year. You don't have to fumble around for an excuse or a way of phrasing it, you just know it the moment you see it and reach out to grab it. The question will be, how available is it and does someone else want it, too.

Midheaven

Your Reputation, Career, Life Path

Manage Practical Emotions

Moon Conjunct Midheaven

You're very attuned to the buzz about you this year, and your first reaction will be to interpret and manage a situation directly as it relates to improving your status and reputation, particularly professionally. It's not always all about you, however, so over-advertise to audiences who aren't really interested.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Mental Accent

Mercury Conjunct Mercury

Your native mindset is reinforced this year, and you're a step further along in your fundamental approach to thinking and analysis. Essentially, you're revisiting your own mind, re-familiarizing yourself with what's unique about your thought processes and sharpening your wit based on a new plateau of self-awareness.

This year your perfect soundbite awaits you, and probably more than one. You'll succeed more if you can explain what you do more clearly, and outlining your achievements and intentions suddenly becomes more focused and more complete all at the same time. You can put your finger right on it, then go sell it.

Saturn

Caution, Wariness, Wisdom, Boundaries

Organized Ideas

Venus Conjunct Saturn

If you're a little more severe this year, go ahead and lay on the discipline, and you'll be surprised how they eat it up. Tight, reserved, classic all look the more elegant, or at least your particular brand does. Satisfaction comes from withholding the object of desire until the intensity grows to a peak. Wait until they scream for it.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Insights and Ideas

Uranus Conjunct Mercury

You are at a fabulous point when all sorts of brainstorming are hovering about you just waiting to happen. Your mind will be moving quickly from one subject to another, so be prepared to jot down what comes out lest it be soon forgotten. A swift harvest of thoughts not to be wasted.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From May 14, 2018 to May 14, 2019

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
